## TVET REGIONAL PROGRAM / CONFERENCE

Join TVET leaders and enthusiasts in the Asia Pacific region and the world in sharing global perspectives on innovations focused to bring socio-economic development.

Take part in the exchange of minds on varied themes like technopreneurship, quality assurance, industry-institute partnership, vocational skills training initiatives, and global initiatives all in the name of TVET competitiveness for the region's transformation.

Meet and link up with TVET stakeholders and kick off with new partners and future collaborations.

## OVERVIEW

With rapid technological innovations and modernization bringing intensified competitions in the market economy, the Technical and Vocational Education and Training (TVET) system has to realize its significant role in the socio-economic development of developing countries to catch up with this fast rising globalization.

To meet the demands of the increasing socio-economic divide brought about by globalization it is imperative that TEVT takes up the challenge to weave innovations on their part to be able to fully contribute to the socio-economic transformation of developing countries, thereby proving its catalyst impact in the economies in the region.

The International Conference set to be organized by Diploma Engineers Association, Nepal (DEAN), Nepal, the Colombo Plan Staff College (CPSC), Philippines and the Council for Technical Education and Vocational Training (CTEVT), Nepal is in view of highlighting innovations, challenges and issues in TVET that is focused to contribute to enhancing TVET systems to fully realize its impact in the socio-economic development of the region.

Topics lined up for presentations, discussions and deliberations will revolve around employability through technopreneurship in TVET; quality assurance in TVET; industry-institute partnership; vocational skills training initiatives for socio-economic development; global initiatives for TVET competitiveness; among many others.

## THE ORGANIZERS

### DIPLOMA ENGINEERS' ASSOCIATION, NEPAL (DEAN)

Diploma Engineers Association, Nepal (DEAN) was established in 1980 as a common, technology oriented and non-profitable organization. One of the objectives of DEN is to make Mid-Level Engineers Profession capable and active in contributing to nation building process and to supplement Mid-Level Engineers with high morale and by protecting their professional rights. DEAN represents about 25,000 Mid-Level Engineers of the country.

### COLOMBO PLAN STAFF COLLEGE (CPSC)

The Colombo Plan Staff College (CPSC) is a unique inter-governmental organization for human resources development in Asia and the Pacific Region. As a specialized agency of the Colombo Plan System, CPSC is mandated to enhance the quality of technical and vocational education and training (TVET) in its member countries through the planning and implementation of demand-driven training programs, research and development, information dissemination and consultancy activities.

### COUNCIL FOR TECHNICAL EDUCATION AND VOCATIONAL TRAINING (CTEVT)

The Council for Technical Education and Vocational Training (CTEVT) constituted in 1989 is a national autonomous apex body of Technical and Vocational Education and Training (TVET) sector committed for the production of technical and skillful human resources. CPSC mainly involves in policy formulation, quality control, preparation of competency based curriculum, developing skill standards of various occupations and testing the skills of the people, conduct various research studies and training needs assessment.

## OBJECTIVES OF THE CONFERENCE

The International Conference seeks to:

- Provide a platform for discussions and sharing of innovations, best practices, initiatives and successful models in TVET sector;
- Establish links for national, regional, and international TVET initiatives that will further enhance quality assurance through accreditation;
- Contribute in establishing, and strengthening industry-institute linkages, networks and partnerships;
- Help promote awareness and deeper understanding on global trends and initiatives for TVET competitiveness; and
- Prepare TVET institutions and graduates to fit into global requirements through continuous exchange of knowledge and skills and by realization of technological development and socio-economic condition of the specific country and the region.

## PARTICIPANTS

The international conference is bringing all stakeholders of TVET such as policy makers, international organizations and institutions, administrators, educators, industry representatives, experts, advocates, professionals and enthusiasts on a common platform to discuss and exchange viewpoints on trends and innovations in TVET to effect socio-economic transformation.

## SPEAKERS

The Conference will be addressed by national and international TVET experts, practitioners and professionals.

## REGISTRATION

Registration is open to all interested participants for 250\$ (inclusive of lunch and snacks)

Special privileges will be provided to the sponsors during the event including promotional opportunities.
